

Hint

Using Base 10 models and place value relationships think...

- What is 10 more than...? means to add 1 to the tens place.
- What is 1 less than...? means to take away 1 from the ones place.

Using the Number line and numerical relationships...

- What is 10 more than...? means to hop or jump 10 to the right on the number line.
- What is 1 less than...? means to hop or jump 1 to the left on the number line.
