## Possible Solutions

1. A vertical number line may be used to order the temperatures from coldest to warmest.

$$
\begin{gathered}
3.2^{\circ} \\
2.6^{\circ} \\
0.7^{\circ} \\
-1.3^{\circ} \\
-2.4^{\circ}
\end{gathered}
$$

2. A horizontal number line may be used to order the temperatures from coldest to warmest.

| $-2.4^{\circ}$ | $-1.3^{\circ}$ | $0.7^{\circ}$ | $2.6^{\circ}$ | $3.2^{\circ}$ |
| :--- | :--- | :--- | :--- | :--- |

3. A visual representation may not be used to solve but to order them numerically.

$$
-2.4^{\circ},-1.3^{\circ}, 0.7^{\circ}, 2.6^{\circ}, 3.2^{\circ}
$$
